

Eurosenors XXIV

September 5 – 8, 2010, Linz, Austria

Ladies and Gentlemen,

The Eurosenors series of conferences was established in 1987 representing the major European forum to cover the entire field of sensors, actuators, and microsystems. The Eurosenors conferences bring together European scientists and engineers from academia, research institutes, and companies to present and discuss the latest results in the general field of solid-state sensors, actuators, micro- and nanosystems. For more information please visit www.eurosenors2010.com.

After Lausanne (2009) the Eurosenors now moves to Austria: The Johannes Kepler University will host the 2010 conference held on September 5–8 and will organize it in cooperation with the Austrian Center of Competence in Mechatronics (ACCM).

The Eurosenors provides an excellent possibility to reach an international audience of about 500 research scientists and engineers from both academia and industry. There are several opportunities for your organization to participate in the Eurosenors 2010 as a sponsor of the conference.

Sponsoring Packages

Bronze Package: Logo and weblink on conference website and in printed documents

Silver Package: as above plus one full conference registration

Gold Package: as above plus possibility to display brochures and material on a table (provided) or in a booth (to be provided on your own), 2 chairs and 230 V mains provided.

Individual sponsor packages: to be negotiated, e.g., sponsoring of reception buffet, drinks, etc., or subsets of the above

Please complete the questionnaire on page 2 and tick the appropriate package.

Contact and Further Information

If you have any questions regarding the exhibition, please do not hesitate to contact Prof. Christian Diskus (see below).

We are looking forward to another successful Eurosenors Conference and hope that your organization will consider participating either as an exhibitor at the conference or as a sponsor of the conference.

Sincerely yours,

Prof. Christian Diskus
Local Chair
